

Sherpa 100ECO
 The environmentally friendly and compact SHERPA 100ECO can now do the physically demanding indoor work that you used to do manually. This nifty machine is extremely quiet and doesn't produce any unpleasant exhaust fumes.

Eco-Friendly & Efficient

Hanenberg Materieel was the first manufacturer to introduce an electric mini skid steer: the SHERPA 100ECO. This mini loader is just as powerful as the model with the combustion engine and is particularly suitable for indoor demolition work and work in stables. The 76-cm wide mini compact loader is powered by a surprisingly strong 2-HP front-mounted electric motor.

Pressing the accelerator quickly builds up the pressure in the system. The space that normally contains the combustion engine now stores a 360-ampere battery pack that powers the mini skid steer for up to 8 hours.

Environmentally Friendly

The environmentally friendly and compact SHERPA 100ECO can now do the physically demanding indoor work that you used to do manually. This nifty machine is extremely quiet and doesn't produce any unpleasant exhaust fumes.

Technical Data

Engine	
Type:	DC Motor (brushless)
Capacity (kW/HP):	1.5/2
Revolutions per minute (rpm):	1800
Drive system	
Hydraulic through 2 hydraulic wheel motors	
Speed (mph)	
Speed (mph):	0-4
Capacity data	
Breakout force (lbs):	1851
Tractive force (lbs):	1230
Hydraulic drive system (psi):	2756
Hydraulic tank capacity (gal):	11
Tipping load in straight position on LCD point	
Pallet forks with weight low:	771
Pallet forks with weight high:	486
Bucket with weight low:	770
Bucket with weight high:	484
Tires	
Tires:	4.00x10
Brakes	
Service brake:	Hydrostatic on 2 rear wheels / 2 front wheels through chain transmission
Steering	
Type:	Skid steering
Electrical system	
Battery type:	Traction battery
Voltage (V):	24
Battery capacity (Ah):	360
Kerb weight (lbs):	1591

Elevator Friendly

Weighing in at only 1,600 lbs. and compatible with standard elevators. Going up?

Less Than 31 Inches Wide

So you can travel through standard doors... with the door still attached!

Zero Fuel Costs

Sherpa 100ECO plugs directly into standard 110v outlets.

We offer a leasing program
